

SCIENCE/TECHNOLOGY

General

[All About Birds](#)

Online guide to birds and bird watching. Includes ID tips, sound and video for over 200 species.

[Animal Diversity Web](#)

Includes general information about all species of the animal kingdom.

[Extreme Science](#)

World records of science. The biggest, baddest and best and the science behind each.

[How Stuff Works](#)

Explains thousands of topics including science, technology, and electronics.

[GCF Learn Free: Computers](#)

Online tutorials for learning computer basics from the Goodwill Community Foundation.

[National Aeronautics and Space Administration NASA](#)

Current information and news about space missions, past and present. Includes images, video and interactive features.

[National Oceanic and Atmospheric Administration \(NOAA\)](#)

Information on the condition of the oceans and the atmosphere, climate and weather.

[Nature.com](#)

Online magazine covering a wide range of science and medical topics. Browse by topic or by publication.

[Periodic Table](#)

Periodic table with user-friendly data and facts about each of the elements.

[U.S. Geological Survey](#)

Information on the health of our ecosystems and natural resources.

[Wolfram MathWorld](#)

An extensive mathematics resource.

[World Wide Web Consortium Standards & Tutorials](#)

Information on web technology standards and tutorials for website development.

News

[Live Science](#)

News articles and reviews on science topics in the natural and technological worlds.

[New Scientist](#)

Science news and articles on space, technology, health, economics and genetics from the New Scientist magazine.

[Popular Science](#)

Reporting on what's new and next in technology, science, gadgets, space, green tech, and more.

[SciCentral](#)

Reliable and timely free science information in the biosciences, health sciences, physics/chemistry, earth and space, and engineering.

[Science Daily](#)

Breaking news and articles in science and technology.

Journals

[arXiv.org](https://arxiv.org)

Open access collection of scholarly articles about physics, mathematics, computer science, quantitative biology and other topics maintained by Cornell University Library.

[Multidisciplinary Digital Publishing Institute \(MDPI\)](https://www.mdpi.com)

Publishes scholarly, peer-reviewed open access journals.

[Science Direct](https://www.sciencedirect.com)

in physical sciences and engineering, life sciences, health sciences and social sciences from Elsevier. Includes open access articles.
